

**Pediatric Grand Rounds:
Preventing Cancer Shot by Shot!
Clinic Interventions to Improve HPV Vaccination Rates**

Thursday, August 3, 2017

8:00-9:00 am

Sanford Health Schroeder Auditorium

Videoconferenced to: Avera Classroom 2 and registered videoconferencing sites

PRESENTED BY: Robert Jacobson, MD, FAAP

TARGET AUDIENCE: Local and regional physicians, Advanced Practice Providers, and RNs

PURPOSE: Upon completion of the activity, the learner will have increased knowledge and clinical application of current standards of care for pediatric conditions identified as evolving and for emerging conditions.

OBJECTIVES:

1. Demonstrate the announcement (presumptive language) approach to recommending the HPV vaccine as opposed to the discussion (shared decision making) approach
2. Describe the C.A.S.E. approach to parental and teen hesitancy
3. List and describe a number of proven initiatives a practice should adopt clinic wide to boost HPV vaccination rates

PRE-REGISTRATION

Pre-registration is no longer required for each event. If you wish to pre-register you may continue to do so at www.sanfordhealth.org/classes-and-events/courses/pediatric-grand-rounds.

ATTENDANCE

An attendance sheet will be available at the live event and can also be obtained from Betty Jorgensen. The attendance sheet must have your printed name (legible) and be submitted to Brenda Ramstad following the activity via fax at (605) 312-9827. If you are not employed by Sanford, please include your email address next to your printed name.

Videoconference Participants: The new dial string is 1105000@usd.edu . Please inform your local IT Department of this information.

If Sanford sites have any issues, call 605-328-7333 and tell the Help Desk it is a High Priority issue and they need to Transfer the call to the Telehealth Department.

PRESENCE OR ABSENCE OF CONFLICT OF INTEREST FOR PLANNERS & FACULTY/CONTENT SPECIALIST(S):

Robert Jacobson, MD, FAAP, has a potential conflict of interest as follows: Member, Safety Review Committee, post-licensure safety studies of 4vHPV and 9vHPV and Data Monitoring Committee, pre-licensure studies of 15-valent pneumococcal conjugate vaccines for Merck & Co. Speakers agree to disclose any off-label, experimental, or investigational uses of drugs or devices in this presentation. The planning committee has no potential conflict of interest to report regarding this presentation.

CREDIT STATEMENT:

Sanford Health is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
