

SD Cancer Coalition: 2018-2019 Year in Review

WORKING
TOGETHER
TO REDUCE THE
BURDEN OF
CANCER
IN SOUTH DAKOTA

The South Dakota Comprehensive Cancer Control Program (SD CCCP) aims to reduce the impact of cancer on South Dakotans through the promotion and support of collaborative, innovative, and effective programs and policies for cancer prevention and control. Through the SD Cancer Coalition, the SD CCCP brings together diverse organizations and individuals to monitor and assess cancer related issues in the state. The SD CCCP determines priority areas of focus on an annual basis and mobilizes resources that can impact outcomes. In this report, Coalition activities and outcomes are highlighted to review the progress made in 2018-2019 towards achieving the goals and priorities of the SD Comprehensive Cancer Control State Plan 2015-2020.

SD Cancer Plan 2015-2020 Goals

- Prevent cancer among South Dakotans
- Detect cancer in the earliest stages for all South Dakotans
- Ensure timely and appropriate access and treatment for all cancer patients in SD
- Optimize South Dakotan's quality of life across the continuum of cancer
- Eliminate disparities in the burden of cancer in SD

2018-2019 SD Cancer Coalition Task Force Outcomes

Task Force Name	Key Strategies	Outcomes
<p>HPV Vaccination</p> <p><i>20 Members</i></p>	<ul style="list-style-type: none"> – Educate college-age students and students organizations on the HPV vaccination – Provide education about the HPV vaccine to K-12 school administrators – Provide HPV vaccination education to coalition members and interested stakeholders 	<ul style="list-style-type: none"> – Released a Request for Applications “Increasing HPV Vaccination Education on SD College Campuses”, awarded funding to two post-secondary institutions in SD to provide education on HPV vaccinations – Hosted a public webinar, “HPV Vaccination is Cancer Prevention” on May 14, 2019 – Updated the HPV vaccination infographic with 2017 National Immunization Survey Data – Partnered with the SD Immunization Program to provide HPV vaccination education to clinics
<p>Cancer Survivorship</p> <p><i>14 Members</i></p>	<ul style="list-style-type: none"> – Promote assessment and referrals, patient navigation, and SCP provision for cancer survivors – Develop and implement cancer survivor messages into existing public awareness efforts – Provide education to primary care providers regarding best practices for cancer survivorship care 	<ul style="list-style-type: none"> – Promoted a funding opportunity for health systems to enhance cancer survivorship activities, with one cancer center funded – Hosted a webinar for primary care providers in partnership with the American Cancer Society on best practices for survivorship care – Developed a Cancer Survivorship Awareness campaign toolkit (a series of posts, content, and images for social media) intended to celebrate and bring awareness to cancer survivorship resources.
<p>Early Detection Health Equity</p> <p><i>23 Members</i></p>	<ul style="list-style-type: none"> – Develop and deliver appropriate lung cancer prevention messages to increase awareness of appropriate screening protocols and quality care standards – Develop and promote the use of culturally tailored testimonials of cancer survivors – Promote low-or-no-cost breast and cervical cancer screening programs 	<ul style="list-style-type: none"> – Explored interest in expanding mobile mammography, with cost concerns identified and shirked to promoting programs and funding that offer transportation assistance for mammography screening – Designed messaging toward the development of a lung cancer screening rack card targeting health care providers with lung cancer screening protocol information – Identified culturally relevant messages to incorporate with health plan materials

Implementation Partnerships, 2018-2019

The implementation funding structure has continued as recommended. All implementation grantees implemented evidence-based activities that lead to policy, systems, or environmental changes that will last beyond the funding period. Data was gathered from program records. Detailed information about the grantee projects is described below.

Worksite UV Protection Policy for Outdoor Workers

Released: March 2018

Project Period: June 1, 2018 – September 30, 2018

Grantee: YMCA Giraffe Park Day Camp

Award: \$921.75

Priority Area: Priority 4: Reduce ultraviolet radiation exposure

In 2018, the YMCA Giraffe Park Day Camp promoted a sun safe worksite through the adoption of a worksite UV (ultraviolet) protection policy and implementation of strategies to support the policy. The program implemented eight UV protection practices they had not implemented prior to funding, with six of the eight UV protection practices now encouraged or required as part of the policy.

Worksite UV Protection Policy for Child Care Programs

Released: March 2018

Project Period: June 1, 2018 – September 30, 2018

Grantees: Arlington Community Daycare, Brittany's Daycare, Busy Bees Daycare, Kids, Inc Summer Enrichment, Little Nest Preschool, Little Nest Preschool South, Prairie Hills Child Care Center, Sprouts Community Daycare, Timberlake Daycare, USD Vucurevich Childcare Center

Award: Home-based child care programs could request up to \$250 and center-based child care programs could request up to \$500.

Priority Area: Priority 4: Reduce ultraviolet radiation exposure

The SD CCCP released a funding opportunity to child care programs across SD in March 2018, aimed at reducing exposure to ultraviolet radiation among youth. Ten child care programs were awarded funding out of 19 applications. All awardees were required to adopt a sun safety policy and at least one educational or environmental strategy to support the policy. All programs chose to implement more than one sun safety practice in addition to policy implementation. Nine of the ten programs installed a shade structure on the playground areas of the facility. Four programs, which had not required sunscreen, elected to provide and make sunscreen use mandatory. All programs provided education to staff and parents, and nine provided education on sun safety to the children as part of the program's curriculum. Four chose to provide sunglasses and/or hats to children for outside time. All of the grantee child care programs implemented a sun safety policy, education, and evidenced-based strategies to increase sun safe practices. Over 800 children across 10 child care locations statewide were impacted with grant funding totaling less than \$4,500.

Implementation Grants Request for Applications

Released: January 2018

Project Period: June 1, 2018 to May 31, 2019

Grantee: Black Hills Pediatrics, LLP

Award: \$13,653 funded in partnership with the *All Women Count!* Program

Priority Area: Priority 6: Increase HPV vaccination rates

Black Hills Pediatrics, LLP. received implementation funding to implement client reminders, provider reminder and recall systems, and provider assessment and feedback aimed at improving both first dose and series completion rates for HPV vaccination among males and females in their clinic location in Rapid City. Overall, 4,135 client reminders and 1,477 doses of HPV vaccine were administered during the project. Black Hills Pediatrics, LLP. saw a 13% increase over baseline in HPV vaccination initiation rates among all patients ages 11-18. HPV vaccination series completion rates increased by 14% over baseline among all patients ages 11-18.

Grantee: Sanford Medical Center

Award: \$20,000

Priority Area: Priority 13: Promote patient-centered care that enhances quality of life for all cancer survivors

Sanford Health Center was awarded funding to implement evidence-based nutrition interventions to enhance nutritional interventions to prevent malnutrition and assist with weight management. The project consisted of three main interventions: 1) the integration of a malnutrition screening tool into clinical workflows, 2) a best practice alert for dietitian referral, and 3) nutrition counseling for those referred for services. Over 3,300 new and active cancer patients were screened for nutritional risk throughout the one-year project period. Of those patients, 16% were identified at nutritional risk by the screening tool. At the time of their initial visit, all patients were offered to meet with the dietitian for preventive nutrition care, even if they were not at nutritional risk. In total, nearly 700 cancer patients and survivors received nutritional services from the registered dietitian. 50% of patients were seen within one day of their referral, with an average length of time from initial consult to nutrition service provision of 3.4 days. Additionally, 100% of cancer survivors were offered nutrition counseling as part of their survivorship visit.

Implementation Grants Request for Applications

Released: September 2018

Project Period: January 1, 2019 – December 31, 2019

Grantee: Horizon Health Care, Inc.

Award: \$19,500

Priority Area: Priority 6: Increase HPV vaccination rates

Horizon Health Care, Inc. received implementation funding to develop and implement client reminders and establish provider assessment and feedback processes to improve both first dose and series completion rates for HPV vaccination among males and females.

Grantee: Mobridge Regional Hospital and Clinics

Award: \$20,000

Priority Area: Priority 6: Increase HPV vaccination rates; Priority 7: Increase risk-appropriate screening for breast cancer; Priority 9: Increase risk-appropriate screening for colorectal cancer
Mobridge Regional Hospital and Clinics received implementation funding to develop client reminders for HPV vaccination, mammography, and colorectal cancer screening.

Grantee: Sanford Health Brookings Clinic

Award: \$27,550

Priority Area: Priority 6: Increase HPV vaccination rates; Priority 7: Increase risk-appropriate screening for breast cancer; Priority 9: Increase risk-appropriate screening for colorectal cancer
Sanford Health Brookings Clinic received implementation funding to host two screening events, adding evening hours and providing both transportation and childcare for the events to increase access to vaccination and reduce barriers to screening.

Grantee: Sanford Medical Center

Award: \$20,000

Priority Area: Priority 14: Improve palliative care services and awareness for cancer patients.
Sanford Health Center was awarded funding to implement evidence-based patient navigation, workflows, and referral processes to increase access and early referral to palliative care services.

SD Survivorship Program

Priority 13: Promote patient-centered care for all South Dakotans affected by cancer

The SD Survivorship Program (SDSP) began in September 2015 supported by funding from the CDC to enhance collaborations with local cancer treatment centers to improve care to cancer survivors with focused efforts on expanding provision of survivorship care plans in partner cancer centers, improving health care provider knowledge, and assessing the knowledge treatment and follow-up care needs among survivors. Funding for the program ended in September 2018. Program highlights in the final months of the project included the following:

- BRFSS survivorship module was incorporated for ongoing assessment of survivorship quality of life, resulting in two surveillance briefs, [Cancer Survivorship](#) and [Cancer Status and Health Indicators](#).
- Cancer Survivor's Views of the Survivorship Care Plan study completed with information available in a summary report, and a manuscript highlighting the results forthcoming.
- Enhancements to processes identify survivors eligible to receive survivorship care plans at the partner cancer treatment centers resulted in exceeding the Commission on Cancers' standards for distribution in all three years of program funding.
- Cancer survivorship professional development opportunities were provided.
- A white paper, [Provision of Survivorship Care Plans in Hard-to-Reach Patient Populations](#), was produced.

SD Comprehensive Cancer Control State Plan: 2018-2019 Activities

Priority	Activities	Partners
PRIORITY 1: Reduce tobacco use.	<ul style="list-style-type: none"> – ACS Cancer Action Network & SDMA supported proposed legislation to increase tobacco tax and age of purchase to 21. – The Great Plains Tobacco Prevention Project provided education and tobacco awareness. – Training was provided to medical professionals on cessation assessment and referral. – Thirteen community/school partnership coalitions and twelve organizations were funded by the Tobacco Control Program in 2019 to promote tobacco use prevention and cessation. – According to the North American Quitline Consortium, the South Dakota QuitLine had the highest quit rate among reporting quitlines in 2018 (41.1%). – Cancer survivors identified as tobacco users were referred to tobacco cessation resources. – Sanford Health hosted a tobacco cessation workshop and provided cessation information to employees at the Great American Smoke Out. 	American Cancer Society Cancer (ACS) Action Network Great Plains Tribal Chairmen’s Health Board (GPTCHB) Sanford Health SD Cancer Survivorship Program South Dakota Medical Association SD Tobacco Control Program SD QuitLine
PRIORITY 2: Eliminate exposure to secondhand smoke.	<ul style="list-style-type: none"> – Delta Dental of South Dakota Foundation provided secondhand smoke education in SD. – The Sioux Empire Tobacco Free Coalition hosted two smoke-free housing workshops in Rapid City and Sioux Falls. 	Delta Dental of SD Sioux Empire Tobacco Free Coalition
PRIORITY 3: Increase healthy, active lifestyles.	<ul style="list-style-type: none"> – Sanford Health implemented nutrition screening for all cancer patients, with referral to a registered dietitian for further counseling. – Nine worksites across the state were funded through the WorkWell Grant to implement policy and environmental changes to improve nutrition and increase physical activity in the workplace. – Cancer survivors received nutrition and physical activity referrals. – The SD Park Prescription project had over 81 healthcare providers participating in 2018, representing over 40 healthcare clinics and locations across the state. – The Breastfeeding Friendly Business Initiative has over 640 business that have taken the pledge to show support for their breastfeeding employees and customers. 	Sanford Health SD Cancer Survivorship Program SD Nutrition and Physical Activity Program
PRIORITY 4: Reduce ultraviolet radiation exposure.	<ul style="list-style-type: none"> – The YMCA Giraffe Park Day Camp was awarded funding to adopt a worksite UV protection policy and to implement sun safety strategies. – The SD CCCP funded childcare sun safety policy and UV protection strategies. Ten childcare programs were awarded funding per year in 2017 and 2018, and nine in 2019. – The SD DOH partnered with Avera and the SD Soil Health Coalition to provide education on skin cancer and distributed sun-protective hats to farmers in SD. – Sanford Health promoted Sun Safety at farm shows. 	American Cancer Society (ACS) Avera Sanford Health SD Department of Health SD Soil Health Coalition YMCA Giraffe Park Day Camp
PRIORITY 5: Reduce exposure to environmental carcinogens.	<ul style="list-style-type: none"> – ACS continues to support national research on limiting exposure to carcinogens. – Continued partnership to collect data on a volunteer basis for radon testing and mitigation in SD. 	American Cancer (ACS) SD Department of Energy and Natural Resources

Cancer Coalition Awards

The **Sanford Health Watertown Clinic** (pictured at top) received the *2019 Innovator of the Year Award* for testing a new idea for CRC screening improvement.

The *2019 Organization of the Year Award* was presented to **Avera Cancer Institute Navigation Center** (pictured at bottom left) for advancing CRC screening initiatives.

Vicki Bauer received the *2019 Colorectal Cancer Champion of the Year Award* for dedicating her time and talent to improving colorectal cancer screening. Pictured is Jamie Arens with the Avera Cancer Institute accepting this award on Vicki's behalf.

The *2018 SD Cancer Coalition Champion Award* was presented to **Andi Litton** (pictured at right), Chief Operating Officer at Rapid City Medical Center Gastroenterology, for going above and beyond the call of duty to advance projects consistent with priorities of the SD Cancer Plan.

Want to get INVOLVED?

The mission of the **SD Cancer Coalition** is to reduce the burden of cancer for South Dakotans. We are looking for enthusiastic and dedicated volunteers to join the coalition! **HERE'S HOW!**

Register Online: To learn more about this opportunity, please join online at

<https://www.cancersd.com/join-us/>

Join a Task Force or Committee:

Join a priority task force or committee of our coalition! Each task force identifies activities to accomplish each year which **address specific issues in cancer prevention and control** from the SD Cancer Plan.

Engage Your Organization:

The 2015-2020 State Cancer Plan contains a blueprint for strategic action and statewide partner involvement. Engage your organization in one of the **15 plan priorities**.
